GLASS AND LAMINATED GLASS

REQUEST FOR RECONSIDERATION

THE COMMISSIONER IS AUTHORIZED
TO CHARGE ANY DEFICIENCY IN THE
FEE FOR THIS PAPER TO DEPOSIT
ACCOUNT NO. 23-0975.

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Reconsideration is respectfully requested in view of the amendments to the claims filed on April 27, 2006 which are formally entered upon the filing of the instant RCE.

In addition, reconsideration is respectfully requested in view of the following remarks in response to the Advisory Action.

The Examiner states "Applicant asserts that triethyleneglycol-di-2-ethylbutylene (3GH) of Kondo et al. is not a dispersant. 3GH can act as a dispersant as particles are dispersed in a small amount of 3GH that is subsequently added to a larger solution. Applicant has not demonstrated that it cannot act as a dispersant."

However, claim 29 as now amended requires the dispersant to be selected from the group consisting of:

- (a) a chelating agent,
- (b) a compound with at least one carboxyl group at its terminal position,
- (c) a carboxyl modified silicone oil,
- (d) a sulfate compound, and
- (e) a polyalcohol surfactant.

Kondo et al. disclose phosphoric acid esters, polyether esters and fatty acid esters

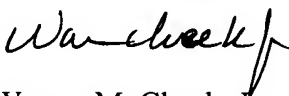

which can be used as plasticizers as well as 3GH. However, Kondo et al. fail to disclose or suggest the specific dispersants of claim 29 which are structurally different and chemically distinct from the compounds of Kondo et al. Accordingly, the rejection of claims 29-32, 34, 40 and 43-50 under 35 USC 102 as anticipated by Kondo et al. is untenable as applied to the amended claims and should be withdrawn.

Regarding the former grounds of rejection of the former claims under 35 USC 103, these grounds of rejection as applied to the amended claims will be obviated by a Rule 132 Declaration to be filed in the near future according to the suggestion of the Examiner in the Advisory Action.

Favorable consideration is respectfully solicited.

Respectfully submitted,

Shinnen KOBATA et al.
